

# What is myVoiceCloud and how does it work?

myVoiceCloud is the easiest self-guided meditation platform. It creates a personalized meditation experience for your clients. You can sell it as a stand-alone product or offer it as a bonus for your other coaching and meditation products.

# What makes self-guided meditation special?

It's fascinating: Self-guided meditation simply works better when hearing your own voice.

Your subconscious mind accepts affirmations, hypnosis, or other personal development techniques more easily when it's your voice you are hearing.

# How does myVoiceCloud make all of this easy?

myVoiceCloud takes all of the “tech overwhelm” out of creating life-changing, transformative meditation audios and videos.

I'll help you hook this up to your membership site.

Simply push record, speak into your headphone microphone, and read the meditation script. The webpage then packages the experience into an audio product library you can customize with your own branding.

**You can use your own meditation scripts, audio, and existing website to deliver this product.**

# How can myVoiceCloud grow my business?

This platform is designed to be super easy for clients to record their self-guided meditations.

It's also designed to be easy for you, as the coach, to create transformative experiences for your clients.

You can use all of your existing content and assets to create a new, valuable experience.

# When you offer myVoiceCloud to your clients you can...

## **Increase loyalty and convert to higher-value offers:**

Offer your library of transformative meditations as a front-end and convert clients to your higher-ticket programs

## **Reduce churn**

This is a product people will want easy access to longterm... That means clients will be engaged with you and your offers for a long time to come

## **This is a NEW technology...**

Differentiate YOUR coaching and offers make it completely unique to you, your brand, and your techniques

**You can easily offer this as a valuable add-on to upsell clients and increase average order value**

# Use with One-on-One, Group Coaching, or as a Standalone Product

myVoiceCloud can be used no matter the business model, for example:

## **Working with clients One-on-One**

Use the platform to create personalized meditations for your clients to use. It makes it easier to personalize your custom coaching exercises.

## **One-To-Many**

Have you dreamed about sharing your coaching, meditation, or hypnosis techniques with the world? myVoiceCloud allows you to package up all of your valuable assets and sell it in a one-of-a-kind offer to many people.

## **Group Coaching**

You can easily offer the same powerful transformations from your personal, one-on-one coaching... To a large group instead. You can still offer personalization, adapted for a group coaching environment.

# Why should we talk now?

For a limited time I am are offering complete support to integrate myVoiceCloud with your business...

**I'll handle all of the "tech" so you can focus on helping your clients ...  
And you'll have access to myVoiceCloud as we continue developing the**

World's Easiest Self-Guided meditation platform!

# Let's change the world together
